BE

“ *Home on leave from the Air Force, Scotty took me fishing. Don't know where we went but we had the standard bet, first, most, and biggest. I didn't get anything all day and Scotty was tearing them up (bass). Near the end I lucked out with a 5 pounder so I took biggest, was he mad - LOL
Took the fish back to his place and he showed me how to fillet a bass, on the kitchen table with some newspaper. I have used his teachings ever since.

LS

“ My brothers 1st heart attack was on his 35th birthday, may 20th (20) years ago, he since then had 3? more heart attacks, 6 stints, diabetes, arthritis & last year a stroke, he had nothing but bad medical luck, he was the strongest person that i have ever known or will know.

we both did different things, i was never mechanical or a maintainace kind of person, he could fix anything, i would not attempt to fix anything, he would do it for me, try to show me then he would decide to do it himself, that always worked in my favor. There was nothing David couldn't fix, he just couldn't teach me how to do it.

David was happy to just stay at home & sit outside or work outside in the yard or inside with Charlene. I am so glad he met Charlene, she changed his life, Charlene, thank you for being there for our brother & taking care of him.

I have already missed my brother, no more talks & no more visits, I will always know where to go to see him & talk to him again, that won't be to long from now, since, I am very lonely without him. Our Mother taught us kids to be strong, we all are & have to keep moving forward with out him, just the thoughts of him will keep me going forward.

David, I love you so much & I will always be talking to you for the guidance to move forward & give me the strength to make this journey without you, Thanks for being my little brother, it was a blast, please give Mom, Missy, Aunt Fran & Aunt Joyce a big hug & kiss for me & oh yeah, say hi to Dad & give him a hug & kiss...

Love Always,

Larry, your older brother..OXOXOXOXOXOXO...
